

Why use eBooks?

An eBook is an electronic version of a printed book which can be read on a computer or a specifically designed electronic device. Many titles which are available in print, can be read in eBook format including textbooks and library reference titles.

What are the advantages of eBooks?

Environmentally friendly

eBooks have a lower environmental impact. For example they are paperless and do not require postage or packaging

eBooks are widely accessible

eBooks can be accessed outside the physical library, at any time of the day. eBooks can also be set up so multiple people can access the eBook at the same time

They are interactive

Readers can search and highlight keywords or phrases

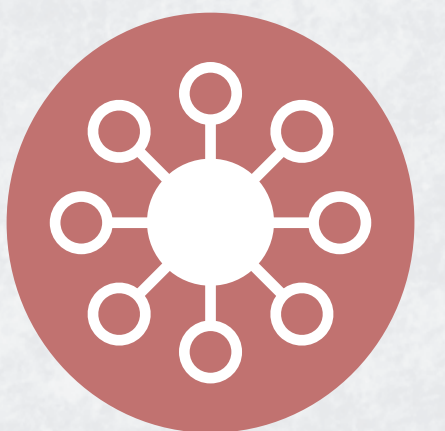

Measuring usage of content

eBooks allow librarians to easily measure how often the book is being accessed by library users, and the impact of the eBook purchase

Variety

eBooks are available in a wide range of subject areas

eBooks take up less space

You can store larger numbers of eBooks in your library, saving space on your library's bookshelves
