

CHOOSE **open** BOOKS

MEMBERSHIP

At Taylor & Francis, we've been publishing open access journals since 2006. In 2013, we complimented this service with our **Open Access Book program**. We have collaborated with researchers to build one of the largest open access book and chapter collections across all subjects in the humanities, social sciences, STEM, and behavioral sciences covered by Routledge, CRC Press, and our other imprints.

BENEFITS OF OPEN ACCESS BOOKS

- » Anyone anywhere can access over **1400 full open access book titles** through taylorfrancis.com.
- » Share all open access book content with students and peers to maximize learning and collaboration.
- » Each title is clearly marked with the open access symbol and **Creative Commons** license information.
- » All open access books and chapters undergo the same rigorous peer review, production process, and formatting as our traditionally published titles.
- » All titles are DRM-free and easily accessible on our platform with full usage reporting available.

SUPPORTING YOUR RESEARCHERS

- » Taylor & Francis offers flexibility with our **Open Access Books Membership**, a bespoke solution to support researchers in publishing open access, simplify the process of publishing OA for authors, reduce administration for library staff, and save with discounted publication charges.
- » Discounts are offered to eligible researchers on our standard Book Publishing Charges (BPCs).

SUPPORTING YOUR INSTITUTION

Benefits of an **open access membership with Taylor & Francis** include:

- » A secure prepayment account with funds allocated for book and chapter publishing charges.
- » Discounts on the BPCs for open access book content including chapters.
- » Reduced administration of processing multiple invoices.
- » A dedicated and personalized open access page on Routledge.com.

Our open access team can work with you to develop a solution that meets your needs.

Taylor & Francis

Taylor & Francis are expanding their Open Access membership programme and are delighted to announce that memberships will now be applicable to Open Access Books.

Our Open Access memberships offer librarians a bespoke solution to support your researchers in publishing Open Access. They simplify the process of publishing Open Access for authors and give you:

- » Discounts on book publishing charges.
- » More visibility of Open Access books and chapters from your institution.
- » Tools to raise the profile of your Open Access research.

WHAT IS INCLUDED IN AN OPEN ACCESS MEMBERSHIP?

Prepayment Account

Prepay money into a fund that allows eligible researchers to publish their book or chapter gold open access in the Taylor & Francis Open Access Books program. BPCs covered by the fund will receive a discount, with the level of discount determined by the amount of money you deposit into your account.

The funds in your prepayment account do not expire and can be withdrawn at any time.

Member Web Page

Promote your membership to researchers using your personalized page on Routledge.com.

The page acts as a portal for all open access research from your institution – providing increased visibility for the books and chapters published using membership funds.

We can also include eligibility criteria and other information authors need to publish their book or chapter open access at your institution to help increase awareness of the program.

HOW DO YOU SET UP AN OPEN ACCESS BOOKS MEMBERSHIP?

1. Get in touch with one of our open access team to discuss your needs.
2. Decide the amount of funds you would like to add to your prepayment account.
3. Once your prepayment account is finalized, the institution will be asked to allocate a central contact who will always be asked to authorise a BPC (to check author affiliation etc) before we make a deduction from the account.

AS OPEN ACCESS BOOKS CONTINUES TO DEVELOP, WE KNOW YOU'LL HAVE QUESTIONS

Visit the Taylor & Francis Open Access Books pages for everything including: Benefits of Open Access, Open Access Publishing Options, and Supporting Your Researchers.
