

Students are working on an urgent need for a sustainable tomorrow: help them with it today

Your students have grown up with ethical veganism, eco fashion, climate action and now a global pandemic. For them, a sustainable life is how they expect to live. And many expect their university to help them create that future.

Sustainable Development Goals Online is a rich multimedia collection of academic resources that you can purchase either in a complete annual collection or in tailored sections to best integrate sustainability into your courses. It will help you enable your students to address the key challenges and deliver the change they want to throughout their careers and lives.

Browse and Buy by Goal >>

- SDGO is a large repository of broad, interdisciplinary content that can benefit a wide range of faculties and departments, from civil engineering to economics to the humanities.
- As well as purchasing the whole collection – allowing you to meet the teaching and research needs of a broad range of departments and faculties – you can also create your own package based on individual goals, allowing you to purchase content relevant to specific faculties or courses.
- It has been created by Taylor & Francis in association with the United Nations' PRME division and guided by an international Advisory Board of academics, practitioners, policy-makers, those working in third sector, government, and NGO contexts.
- 96% of recent graduates have an expectation to be involved in sustainability in some way during their careers and 70% of respondents believe that sustainability should be covered by their university course (OIKOS survey of 1,800 university students worldwide, 2016).
- Helping your instructors and programme leaders to integrate multimedia resources into their curricula and meet the needs of today's digital-first students, this content includes not only book chapters and journal articles but videos, presentations, and a range of other Teaching & Learning materials.
- SDGO is part of Taylor & Francis eBooks, so you can administer the collection in the same interface as your other entitlements and so all content is DRM-free, and has MARC records and COUNTER 5-based reporting available.
