PUBLISHING YOUR CHAPTER OPEN ACCESS WITH TAYLOR & FRANCIS

Taylor & Francis Open Access Books is an initiative that allows chapter authors and their funders the opportunity to publish individual chapters from a book open access. Upon publication, open access chapters are made available to access and download freely under a Creative Commons licence.

We have collaborated with researchers to build one of the largest open access chapter collections and are delighted to be able to showcase open access chapter content across all subjects covered by Routledge, CRC Press and our other imprints in the humanities, social sciences STEM and behavioural sciences.

WHY PUBLISH A CHAPTER OPEN ACCESS WITH TAYLOR & FRANCIS?

VISIBILITY AND DISCOVERABILITY

Publishing your chapter open access with Taylor & Francis allows the final published version to be permanently and freely available online for anyone, anywhere, to read. This ensures the widest possible audience and reach for your research, and guarantees the legacy preservation of your scholarship. All the content that is made open access is hosted on our Taylor & Francis eBooks platform as well as sent to major Open Access distributors such as OAPEN (Open Access Publishing in European Networks) to increase the exposure of the research. All open access book content is also archived in Portico.

Our open access content will also benefit from the full support and global reach of Taylor & Francis marketing departments.

There will be a freely available online version and a downloadable DRM-free PDF on the Taylor & Francis eBooks platform (taylorfrancis.com).

For customers wanting a hard copy of the book, a print version will **still** be available for purchase.
